

SENER/CONACYT Energy Reform Scholarships Academic Areas

1. Exploration Stage
 - Exploration
 - Characterization
 - Operations
2. Exploitation Stage
 - By type of deposit
 - Functional
3. Distribution and Commercialization
 - Planning and Programming
 - Transportation and Operations Execution
 - Evaluation and control
 - Optimization
4. Operation of wells, facilities and drilling
 - Operation of wells and installations
 - Drilling
5. Operational reliability
6. Production of gasoline
7. Production of middle distillates
8. Conversion of waste to background barrel
9. Recovery and fractionation of liquefiable
10. Conditioning, sweetening and sulphur recovery
11. Energy Efficiency
12. Safety, Health and Environmental Protection
13. Maintenance
14. Logistics
15. Project Management
16. Management Technology
17. Economics, politics, negotiation, management and regulation of hydrocarbons
